

# Get Ready for Telehealth!

The Tulalip Health System is launching telehealth visits this fall

## Your health, virtually anywhere

You can connect with your provider from the comfort of your home. To use this convenient new service, you'll need an active **MyChart** account and smartphone or compatible device.

### WHAT APPOINTMENTS WORK FOR TELEHEALTH?

Telehealth will be available for certain types of primary care, psychiatry, pharmacist, and specialist care visits. Talk to your provider or health care team to see if a telehealth appointment is right for you.

## Need Help? We are here!

Visit our Tech Support table at the Health Fair on **August 15th** to set up your MyChart account, and talk to our tech experts about what you need to make a telehealth visit an option you can choose for your health care!
